Sponsor WordCamp Whitley Bay

As an open source platform that's free to use, WordPress has become the number one CMS thanks to the ongoing support of its surrounding community. With the generosity of organisations such as yours, we're also able to hold in-person meetups which are crucial to promote the platform, share ideas, and uncover new ways of working together to democratise publishing.

In our region, we'll soon be hosting WordCamp Whitley Bay, and to make sure we can provide a great venue, refreshments, and an inspiring line-up of speakers for around 120 attendees, we're looking to secure contributions from brands, agencies and individuals who are keen to get involved.

Below we've outlined the limited sponsorship opportunities that are available, so if you'd like to show your support, please get in touch by emailing ian@bigbite.net.
